WHY GLOBAL MBA?

KUBS in the World The World in KUBS

Prestigious Learning Experience

Students can learn not only from lectures but also from global diversity in class. The Global MBA class is comprised of students from all parts of the world and a wide range of business and cultural backgrounds.

1-year Program in English

Global MBA is a 1-year intensive program that helps gain insight and enhance understanding of business in general. It allows students to return to work or prepare for a career in a short period of time, and all courses are offered in English.

Business Practicum

Global MBA provides the Business Practicum course, which allows students to apply the knowledge that they have learned in the classroom to the actual business environment. In the process of devising solutions to solve on site problems given by companies, students can gain useful and practical experience by collaborating with companies and colleagues.

Strong Network

Students can be part of the Korea University network, which provides the strongest alumni connections. By joining Global MBA, students can also communicate with the students from other MBA programs through various club activities. Furthermore, students can create a network with Korea University graduates by participating in various alumni events.

1-year Intensive Full-time Program

Korea University Global MBA's one-year intensive curriculum would minimize career disruptions and achieve highly efficient results in a short time. Besides, Korea University MBA's domestic and international networking has been well established. Korea University Global MBA will be a good choice for those who want to broaden their horizons in life.

JoonSoo, Park

Business Practicum

I believe the most valuable component of the Global MBA was the opportunity to do a project with top Korean companies. The project itself provided a valuable opportunity for students to experience how business is carried out in Korea/Asia, as well as the exceptional chance to network and establish relationships with managers and executives in the top corporations in the country.

Passos Tenorio Rego, Joao Leite

Strong Network

Through Global MBA, I could build up my overall knowledge of economics and management and think about many things that I had never considered before. I had good experiences by sharing ideas with classmates from various countries and backgrounds while we learned from each other and built a solid human network. I believe the Global MBA program can broaden your horizons, give you a great asset and take you to the next level.
